February 18, 2020

Greetings,

School District No.83 has been working closely with our training partner, Okanagan College, and the Salmon Arm Economic Development Society in recent years to raise awareness around our local technology cluster as an important possible pathway for our students as they transition to post-secondary studies. This survey is aimed at getting feedback in potential interest in a new **Mechatronics Diploma program** that would be offered by Okanagan College at the Salmon Arm campus. In this survey, you will be asked about your interest in the program as a whole as well as various features. Your feedback will be used to make important decisions about the program.

The survey will take approximately 10 minutes to complete. Your participation in this study is entirely voluntary and your responses will be kept confidential. All data will be securely stored and any identifying information will be removed prior to analysis.

While quotes from your survey responses may be included in the reporting of this data, careful effort will be taken to ensure that you remain anonymous and cannot be identified.

The information obtained from your participation in this study will be used strictly for research purposes.

The link to this survey is: <https://www.academicasurveys.com/c/r/okanagan1>

Thank you in advance for sharing this survey with your child.

Sincerely,

Reid Findlay

District Principal – Career Programs & MyEducation Project Lead
